Bakery lift-up glass combination case

MODEL LLEGKS/KD

Dry over refrigerated

Bakery lift-up glass combination dry over refrigerated case Model LLEGKS/KD

General Information

Refcon Bakery combination cases offer outstanding display opportunities for bakery retailers in both refrigerated and dry environments. The model LLEGKS/KD features two top shelves for dry display with the third shelf and deck refrigerated. Dry over refrigerated combination cases are available in four lengths up to 76 in (1930 mm).

The Refcon Legend profile gives you all the display volume you need in a contemporary case design that combines esthetics with the functionality.

The lift-up glass case makes loading and unloading easy. Curved front glass over each section lifts easily and closes gently on gas springs. Mirrored rear doors and

side walls amplify light and give you that “endless” look that helps create dynamic displays for your dry and refrigerated baked goods.

Refcon Bakery lift-up glass combination cases are attractive, quiet, and built from tough, easy-to-clean laminates and tempered glass. Standard 3500K interior lighting offers a bright, attention-getting display. Electronic temperature and defrost control and digital temperature display makes it easy to keep products cold while using energy efficiently.

Available with self-contained or remote refrigeration. Many options are available, including glass shelves, glass ends or custom powder painted interior.

Standard Features

- Tempered curved glass lifts and closes easily on gas springs.
- Dry section:
 - (1) Adjustable and (1) fixed glass shelf with light.
 - Open back.
- Refrigerated section:
 - (1) Adjustable glass shelf with light.
