Deli meat case

MODEL **TLEGD**

Deli meat case Model TLEGD incorporating 90° corner case

General Information

Refcon deli meat cases offer a beautiful presentation with a contemporary curved thermopane glass that flows from full height to a low base. This expansive glass line makes your deli products the star of the show. An optional mezzanine shelf and tiered deck inserts offer additional capacity and presentation flexibility.

Refcon deli meat cases are built from tough, easy-to-clean laminates and stainless steel.

Inside, 3500K interior lighting offers a bright, attention-getting display, while standard stainless steel deck and mirrored sliding rear doors give your case that “endless” look that always draws customers. Electronic controls and digital temperature display makes it easy to keep products cold while using energy efficiently.

A wide choice of options are available to help you customize your Refcon cases, including glass or mirror ends, glass dividers and lower front decorative lighting. Cases can also be designed for a continuous case line up.

Standard Features

- Fixed thermopane curved glass.
- Interior stainless steel deck and rear plenum.
- Mirror ends.
- One-way mirrored sliding rear doors.
- Exterior standard grade plastic laminate (matte finish).
- 3500K fluorescent lights.
- Digital temperature display.
- Condensate evaporator (self-contained units).
- Electronic temperature and defrost control (self-contained units).
