# Service counter refrigerated

MODEL **RCB**  
**RCS**  
**RCI**

Refrigerated service counter with combined sections of Model RCB, Model RCS and Model RCI with sneeze guard.

### General Information

Refcon's refrigerated service counters are designed as a flexible foodservice concept allowing the operator to easily change from hotel pan or bowl configuration to stepped display configuration or to iced display configuration.

With angled product presentation and forced air over/under refrigeration, your salad fixings, fresh chilled food and beverages never looked or tasted this good.

Choose from:

- Model RCB—hotel pans or bowls
- Model RCS—stepped display with refrigerated tier and dry tier
- Model RCI—angled deck for iced display

And with a Refcon service counter, you can mix them up any way you want, whenever you want.

Superior materials, design and workmanship in these custom salad bars are the result of Refcon's unmatched experience building refrigerated cases for practically any food display environment.

Tough tubular framing along with stainless steel interior surfaces and durable plastic laminate exterior are standard.

But that's only the beginning. Refcon offers a wide range of countertop materials with custom cutouts, heated food and soup wells, and elegant under-ledge lighting that can make your salad bar the star of your customers' dining experience.

### Standard Features

- Angled well design.
- Stainless steel interior.
- Forced air over/under refrigeration.
- Exterior standard grade plastic laminate (matte finish).
- Bottom dry storage.
- 1 1/2 in. drain lines.

NOTE: Floor drain required.

### Options

- Self-contained refrigeration
- Remote refrigeration (R404a)
  - Remote refrigeration temperature control package
