Bakery lift-up glass combination case

MODEL LLEGBD/BS

Side-by-side refrigerated and dry

Bakery lift-up glass combination side-by-side refrigerated/dry case Model LLEGBD/BS

General Information

Refcon Bakery side-by-side combination cases offer outstanding display opportunities for bakery retailers in both refrigerated and dry environments. Side-by-side combination cases are available in three lengths up to 76 in (1930 mm).

The Refcon Legend profile gives you all the display volume you need in a contemporary case design that

combines esthetics with the functionality.

The lift-up glass case makes loading and unloading easy. Curved front glass over each section lifts easily and closes gently on gas springs. A mirrored wall separates the refrigerated section from dry section. Mirrored rear doors and side walls amplify light and give you that "endless" look that helps create dynamic displays for your baked goods.

Refcon bakery lift-up glass combination cases are attractive, quiet, and built from tough, easy-to-clean laminates and tempered glass. Standard 3500K interior lighting offers a bright, attention-getting display. Electronic temperature and defrost control and digital temperature display makes it easy to keep products cold while using energy efficiently.

Standard Features

- Tempered curved glass lifts and closes easily on gas springs.
- Split for dry and refrigerated sections.
- (2) Adjustable glass shelves with lights in dry and refrigerated sections.
- Interior mirrored ends and partition.
- One-way mirrored rear doors.
- Stainless steel deck.
